Rohith P

Analyst/Software Engineer

Base Location: Bangalore

Email ID: Rohith.p@capgemini.com

Mobile No: +91 9030209842

Grade: A4

Strengths

Full Stack Developer

- Hands on experience in developing microservices with Spring Boot, JPA crud operations, Spring Cloud and Eureka server.

- Have good skills on core java and spring boot. created projects which has given me more scope on spring boot and spring cloud

- Have good communication skills and very co-operative with the team which keeps me working efficiently.

- Has some good knowledge on developing a web page using React Js and also been working with Angular.

Achivement

Crop-Deal Management System

Completed end to end case study of Crop-Deal Management System along with JWT authentication, Swagger and Billing System using Spring boot Microservices with Eureka Server. Used React JS for developing the front end part.

Online personal Photo products Shoppe.

Developed few functionalities using crud operations and able to establish communication between the microservices through Eureka server.

Learnt the concepts of Git, GitHub and has successfully completed course on 'Successful Presentation and also on 'Agile Software Development' at Coursera
